-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 17 April 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Response to Arguments***

Applicant's arguments with respect to claims 14-16 have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18, 58 and 60 are rejected under 35 U.S.C. 102(b) as being anticipated by Ray et al US Patent 5,026,373.

Ray et al discloses an interbody spine fusion (50) comprising a body (53) defining an outside surface, a carrier (57), a carrier receiving area (56 & 52), implanting the bone implantable device adjacent a target bone structure (see Fig. 9), applying biologically active substance onto the carrier after said step of implanting for subsequent delivery to said target bone structure (see col. 8, lines 36-41; col. 10, lines 6-12).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 14-16, 18, 53, 57, 64, 66 and 71 are rejected under 35 U.S.C. 102(b) as being anticipated by McDonnell US Patent 6,126,688 in view of Ray et al US Patent 5,026,373.

McDonnell discloses an interbody spine fusion (10) comprising a body (18) defining an outside surface, a carrier receiving area (14), an un-doped carrier material (12), a port (16) and a pathway (see side opening in Fig. 1). McDonnell discloses the invention substantially as claimed. However, McDonnell does not disclose the steps of applying biologically active substances onto the carrier after the step of implanting for subsequent delivery to the target bone structure.

Ray et al discloses an implant implanted within the vertebrae having a plurality of end caps and a step of implanting for subsequent delivery to the target bone structure (see col. 10, lines 6-12).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the step of inserting the bioactive substance of the McDonnell reference with the step of inserting the bioactive substance of the Ray et al reference in order to promote the growth of bone tissue within the implant.

***Allowable Subject Matter***

Claims 21, 56, 58, 60, 62-63, and 70 are allowed.

Claims 54, 55, 65, 67-69 and 72 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin J. Stewart whose telephone number is 571-272-4760. The examiner can normally be reached on Monday-Friday 7:00AM-5:30PM(1 Friday B-week off).
